6.5.2. Academic and Administrative Audit (AAA) and follow-up action taken: 2021-2022

❖ Academic Audit

Academic audit refers to a systematic way of reviewing the quality of education in an institute. It is aimed towards quality assurance and in bringing improvements in the education system of the college.

❖ Administrative Audit

Administrative audit refers to thorough evaluation of the administrative processes in an institute with respect to its efficiency, and effectiveness. The audit aims towards building and assessing policies, strategies, operations and functions of the institutes.

❖ Aim of Academic & Administrative Audit (AAA)

The main aim of the AAA is to encourage reviews about the college from the peers that are inside and outside of the institution by visiting the sites and conducting a self-study about the processes carried out there. This helps them to ensure the quality of the standards in comparison with the previously set benchmarks by the NAAC. Further, the institutes get an opportunity to understand the shortcomings and improve the quality of education of the various processes and systems of the college. This includes evaluation of all the curricular and co-curricular programs and activities which eventually helps the institutes to maintain the high education standards on a long-term basis.

Over all summary on department wise academic audit report for 2021-2022

- As per the observation of the Audit committee, it is suggested to regularly conduct academic activities.
- Thorough Tutorials/Assignments, which are to be given to the students, and extra classes are to be conducted to give a thorough practice in problem solving to motivate students for the participation in problem solving methodologies.
- Suggestions like conducting study hours and special training classes have been made to strengthen PO.
- Conducting special lectures and classes as per the suggestions of the audit committee.
- The committee has further suggested that students should develop their communication skills to face the competition.
- The audit committee has suggested students to develop their Soft Skills and Technical Skills and their knowledge on latest tools and technologies. It has further suggested the department to organize guest lectures on promoting research culture to meet industry needs.
- Students need research exposure in core concepts and need to be more aware of advanced technologies according to the audit committee
- Suggested to improve Faculty Research and publications and participations in FDPs, seminars, workshops etc.
- The eligible faculties with their deserved qualifications by different cadres of Assistant, Associate, and Professor Levels are appointed and further suggested to initiate the research works by registering Ph.D. in all the departments, to follow the regulations needed for student, teacher ratio.
- It was found that, different training Programs, seminars, conferences, workshops, are conducted by all the department faculties.
- Students are monitored in semester wise regularly, based on that, the condonation lists and detention lists are maintained, we found to be satisfactory to improve the results.
- Slow learners are identified in some departments so by verifying the documents supported, we advised to conduct extra-remedial and tutorial classes for them.

- The Teaching-learning process has to be augmented through new insights and adopting better tools. As per the observation of the IQAC committee, the teaching-learning process has been found to be efficient through lectures, case studies, class room participation, assignments, debates among teams on subjects, and by using audio visual teaching. It has been found that the best practices of providing course material to the students of all the departments are satisfactory.
- Monitoring process is found to be done by regular visits of the principal, through CC surveillance, and the syllabus coverage is tracked by maintaining track sheets. The evaluation of answer papers, the allotment of marks and the quality of mid-exam question papers is regularly checked by exam cell coordinator and the principal. So, the report has found it satisfactory.
- As the IQAC committee members, we are giving an advice, to empower the students with values and professional skills to get placed in the appropriate field. Special communication development Training programs are conducted for the students of BPharm, PharmD and M Pharm by leading training Institutes. The needed action is taken for further Individual counseling to make them understand the certainty of life and train them to work towards the goal.
- The committee has suggested a student mentorship program for every twenty students, with a faculty mentor guiding them through all their academic and personal challenges for better outcomes.
- The industrial visit has its own importance in a career. The industrial visit has its own importance in a career of a student as a part of college curriculum. So, it is satisfactory, that the institution is aimed further to improve the theoretical knowledge for the successful professional career by going beyond academics with a practical perspective of the workplace.
- After verifying all the departments, the external and internal provisions such as financial incentives and leave facility are provided for the faculty in a full-pledged way, for upgrading their qualification and pursue research activities. The faculty members are encouraged to pursue research and upgrade their skills by promising better pay and working terms. The seed money for research activity is provided with the collaboration of the affiliated university. It has been suggested to extend the period of required maternity leave.
