BEST PRACTICE:01

Title of the Practice: Sensitization Towards Career Enrichment

Objective of the Practice:

- A career guidance, training, and placement cell is specifically located at Avanthi Institute of pharmaceutical sciences. Its primary goals are to develop students' abilities to succeed in a cutthroat environment, improve their general technical proficiency, and maintain a strong placement record. This cell works tirelessly to support students as they pursue their professional objectives by providing them with the tools, they need to find employment and, eventually, land the job they want.
- Under the Career Guidance, Training & Placement Cell, the Sensitization Towards Career Enrichment improves students' technical proficiency, language proficiency and communication assessment. STCE plans events and workshops to help students improve their linguistic, logical, and analytical skills. Conducting workshops and seminars focused on specific industries, providing students with in-depth knowledge and practical insights into potential career paths.
- Crafting individualized career development plans based on students' goals, incorporating short-term objectives and long-term aspirations. Offering a range of resources for continuous learning, including webinars, online courses, and industry publications to keep students updated on the latest developments in their fields.

The context:

- In today's dynamic and competitive job market, students are constantly seeking ways to enhance their career prospects and stay relevant in rapidly evolving industries. Sensitization Towards Career Enrichment services play a pivotal role in guiding professionals through the intricacies of career development, helping them identify their strengths, weaknesses, and unique skill sets.
- By combining expert guidance with innovative approaches, these services empower students to make informed decisions, seize emerging opportunities, and build resilient and-changing professional landscape gives details on a range of professions, including the skills required, earning potential, industry interactions, growth possibilities, and job criteria.

The practice:

- The cell responsible for placement and career guidance collaborates with many divisions to address both non-technical and technical procedures. The practice of Sensitization Towards Career Enrichment services for pharmacy students is becoming increasingly crucial in the contemporary landscape of healthcare and pharmaceuticals.
- With the pharmaceutical industry evolving rapidly, pharmacy students face the challenge of staying abreast of the latest advancements, regulatory changes, and diverse career pathways within the field. Career advisory services for pharmacy students provide targeted guidance on navigating this complex landscape, offering insights into specialization options, industry trends, and requisite skill sets.
- Additionally, augmentation services focus on skill development, offering tailored programs to enhance competencies such as pharmaceutical research, regulatory affairs, and healthcare management.
- By fostering a holistic approach to career development, these services empower pharmacy students to emerge as well-rounded professionals equipped to contribute meaningfully to the evolving healthcare landscape. Our students have been guided from their starting years about the career opportunities and about higher education.

Problems encountered:

- Lack of Personalization
- Limited Access to Resources
- industry Knowledge Discrepancies
- Insufficient Networking Opportunities
- Inadequate Skill Development Programs

Resources required:

- Hands on training alongside melding the understudies based on set of working responsibilities which can be finished before the day of grounds enrolment drive.
- Foundation of undeniable vocation advising group with modern labs, study halls and with a greater number of experienced coaches.

BEST PRACTICE:01

Title of the Practice: Counselling Session on Personality Development Campus to Corporate.

Name of the Program	Personality Development Campus to Corporate
Date and Time	19.07.2019 and 10.00am to 12.30pm
Venue	Seminar hall
Resource Person	Dr.G.Monohar, Trainer,Avenida
Number of Participants	28

Objective of the practice:

- Develop advanced clinical skills and knowledge to provide pharmaceutical care in a variety of healthcare settings, including hospitals, clinics, and other patient care environments.
- Focus on patient outcomes by applying pharmaceutical knowledge to optimize medication therapy, improve adherence, and enhance overall patient well-being.
- Foster effective communication and collaboration with other healthcare professionals, including physicians, nurses, and allied health professionals, to ensure comprehensive and coordinated patient care.

The context:

- The career guidance training placement cell organized Career Path in Clinical Pharmacy for PharmD department of AIPS students. PharmD (Doctor of Pharmacy) candidates could pursue a dynamic and multifaceted professional journey in the healthcare industry by pursuing a career in clinical pharmacy. The cell organized this program for the bright future of the AIPS students. Pharmacists who specialize in clinical pharmacy go above and beyond in providing medication, putting them at the forefront of patient care.
- PharmD candidates can make valuable contributions to the healthcare team by deepening their understanding of pharmacotherapy, pharmacokinetics, and disease management as they pursue this field. Professionals work together with doctors, nurses, and other healthcare providers in a clinical pharmacy setting to optimize medication regimens and guarantee the best possible outcomes for patients.

- Pharmacists are also involved in medication therapy management, where they evaluate the efficacy and suitability of drug therapies, recognize and address issues pertaining to medications, and counsel patients on how to take their prescriptions correctly. Those pursuing a career in clinical pharmacy as a PharmD (Doctor of Pharmacy) have the chance to embark on a dynamic and varied professional journey within the healthcare industry.

The Practice:

- The career guidance placement cell organized this event for the bright future of the AIPS students. The main moto of this event is to provide the adequate knowledge about the clinical pharmacy domain for the students. About 70 students actively involved in this event. To prepare PharmD students for a career in clinical pharmacy, meaningful and thorough practice is crucial to gaining the necessary knowledge and abilities.
- Because clinical pharmacy is a constantly changing field, learning must be proactive and experiential. Getting experience in real-world clinical settings through externships, internships, or clinical rotations is an important pan of practice. PharmD students can hone their clinical decision-making, communication, and patient care skills by engaging with patients, healthcare professionals, and a variety of medical scenarios through these hands-on experiences.
- Moreover, practicing clinical pharmacy requires keeping up with the most recent developments in medical protocols and pharmaceutical sciences. To improve their critical thinking, PharmD students should actively look for opportunities to take part in conferences, journal clubs, and case discussions. PharmD students must engage m meaningful and comprehensive practice to acquire the skills and knowledge required for a career in clinical pharmacy.
- Since the field of clinical pharmacy is always evolving, learning needs to be proactive and hands-on. Externships, internships, and clinical rotations are excellent ways to gain practical experience in clinical settings. Through these practical experiences, Pharm.D students can improve their clinical decision-making, communication, and patient care skills by interacting with patients, healthcare providers, and a range of medical scenarios.

- Furthermore, staying current with advances in pharmaceutical sciences and medical protocols is essential for practicing clinical pharmacy. Pharm.D students should actively to participate in journal clubs, conferences, and case discussions to enhance their critical thinking skills.

Problems encountered and resources required:

- PharmD students who choose to pursue a career in clinical pharmacy face a distinct set of obstacles and require resources to succeed in this niche industry. One significant problem is the changing healthcare environment, where roles in clinical pharmacy are constantly growing and changing.
- Pharmacists must continue their professional development to stay up to date on the most recent developments in medicine, treatment options, and legal requirements. For PharmD students hoping to succeed in the fast-paced world of clinical pharmacy, access to conferences, ongoing education programs, and specialized training materials is essential. The fact that clinical pharmacy practice is multidisciplinary presents another important difficulty.
- Working together with medical professionals like doctors, nurses, and other experts requires clear communication and a thorough understanding of PharmD candidates who opt to work in clinical pharmacy, encounter unique challenges and need specific tools to be successful in this specialized field. The dynamic nature of the healthcare industry, which sees a continual expansion and modification of clinical pharmacy roles, is one major issue.

BEST PRACTICE:01

Title of the Practice: Empowering Students through holistic development.

Holistic development is a comprehensive approach in learning which aims to develop multiple facets or abilities of a human brain. Holistic growth among students with an intention to develop intellectual abilities, physical capabilities, cognitive or mental abilities, emotional abilities, and social skills

Objectives of the practice:

To improve academic skills and encouraging learning environment. To impart strong socio-emotional skills for academic, professional, multi-disciplinary, self – resilience skill for social benefit. To inculcate high aim and emancipate students to solve real life problems and be the great asset for the society.

The Context:

Talented youngsters with an overall student strength above 500, the functional activities of the institution facilitate students and provide opportunities in the area of academics, extra-curricular, outreach extension and other life enhancing activities.

The Practice:

AIPS adheres to, “ELLS – Education for Living and Life Skills” mechanism to imbibe holistic principles among students and is designed to optimize motivational factor and educational opportunities.

Academic Excellence:

- Learning attitudes and habits of the students are analyzed under the category of slow learners and advanced learners. Supporting activities are designed for both the groups.
- Slow Learners - revision sessions, special classes, assignments in the form of solving previous year's examination paper, tutorial hours.
- Advanced learners - Seminars/ Conferences/ Technical events and NPTEL courses.

Industry Connect:

Institution with 60 functional MoUs and collaborations organizes industrial visits, internships, knowledge transfer meets, student exchange programs and placements. Entrepreneurs.

BEST PRACTICE:01

Title of Practice: CLINICAL & COMMUNITY PHARMACY TRAINING FOR PharmD STUDENTS.

Objectives:

Doctor of Pharmacy (PharmD):

- After completing a six-year professional doctorate program in pharmacy, a student is granted permission to use the prefix Doctor (Dr.) before their name and is recognized as having earned both a pre-PhD and a post-graduate professional doctoral degree.
- It was developed to enhance the quality of treatment at Clinical and Hospital pharmacy services in India. These pharmacy services are among those that have direct access to the patient healthcare system and are permitted to make important decisions about the prescription of medications for inpatients.
- Curriculum for the course include regular Pharmacy subjects as well as specific subjects like Pharmacotherapeutics and Clinical Pharmacy with sufficient exposure in Clinical Pharmacy services.
- The best part of this course is to raise the standard of Pharmacy Profession in India in terms of Pharmacy Practices as well as making Pharmacy degree acceptable to various other countries.
- The course curriculum is framed by Pharmacy Council of India (PCI) in such a way that it can meet international standards. PharmD curriculum-based researches encompass a variety of determinants of health and their influence on patient outcomes and population health.

Context:

- Ward round participation, clinical postings, training in medication chart review, drug information, patient counseling, identification, monitoring, and documentation of drug interactions, medication errors and adverse drug reactions in hospital and clinical practice setup, total parenteral nutrition, therapeutic drug monitoring, improving patient compliance, etc. are just a few of the areas in which PharmD students receive training.
- The necessary skill to provide the healthcare services needed by patients by giving in to the subject. The fact that doctors won't let PharmD students work directly with patients has frequently been a concerning practical issue.

- To overcome this problem, we had made and have been making continuous efforts in convincing the Hospital CEO/Superintendent/RMO about the preamble of the Course content and the importance of practical training at hospitals. Upon their permission, students were categorized to groups and assigned to a particular physician.
- Ward round participation time table was framed by our faculty and after approval by CEO/Superintendent/RMO, students participate in ward rounds along with the physician and involve in the clinical duties along with the physician.
- Slowly, the students start understanding the procedure of ward rounds, the activities done during the ward rounds, case history discussion and patient counseling.
- Further, interactive sessions are conducted where the students are involved in discussion with physicians and other paramedical staff for better understanding about the case.
- The 6-year PharmD course provides intensive training in pharmacy practice and clinical pharmacy services.
- In the final year, the students will come out as clinical pharmacists, an essential component of healthcare, equal to doctors. Graduates will study in detail about drugs for different diseases. Pharmacists will advise patients about dose, action and side effects

Practice:

- Time Table for PharmD courses were framed in such a way that that II year & III-year PharmD students goes to hospital once in a week, IV-year PharmD students goes to hospital twice in a week, V year PharmD students goes to hospital thrice in a week whereas VI-year PharmD students goes to daily.
- It's a regular pattern that the students clinical training includes Case studies, understanding the Prescription, Patient counseling, Case history recording (with permission), case presentations, drug information services, ward round participation etc.

- PRINCIPAL
Avanthi's Institute of Pharmaceutical Sciences

Evidence of Success:

- The students have undergone such remarkable transformations thanks to the Clinical & Community Pharmacy Training program linked with PharmD courses. Using good therapeutics principles and evidence-based data, in collaboration with patients, prescribers, and other members of an interprofessional healthcare team, to provide patient care while considering pertinent legal, ethical, social, cultural, economic, and professional issues, emerging technologies, and developing biomedical, pharmaceutical, social, behavioral, or administrative, and clinical sciences that may lead to therapeutic outcomes.
- To manage and use resources of the health care system, in co-operation with patients, prescribers and other health care providers and administrative and supportive personnel, to promote health; to provide, assess, and coordinate safe, accurate, and time sensitive medication distribution; and to improve therapeutic outcomes of medication use.
- To promote health improvement, wellness, and disease prevention in co-operation with patients, communities, at-risk population and other members of an inter-professional team of health care providers.
- To demonstrate skills in monitoring of the National Health Programmes and schemes oriented to provide preventive and promotive health care services to the community.
- To develop leadership qualities to function effectively as a member of a health care team organized to deliver the health and family welfare services in the existing socio-economic, political and cultural environment.

Problems Encountered and Resources Required:

- When these programs first started, particularly on the hospital side, we had a lot of practical difficulties persuading the CEO, Superintendent, or RMO of the hospital to grant permission for the student to participate in ward rounds, since this involves medical professionals and paramedical staff.
- Initially every day we used to convince them and many times the hospital management denied the proposal irrespective of our MoU with them.
- There were many incidents where our faculty and students returned to the institute due to non-cooperation from hospital authorities.
- Many times, we faced dissatisfaction representations from the parents.

- Immediately, in the fifth year PharmD students will not be capable of identifying DDI or ADR thoroughly, as it requires a lot of practice, subject knowledge, coordination with physicians and other paramedical staff members.
- As well we explained to them about the Poison information center, which refers to a specialized area of drug information where the students provide information on the toxic effects of an extensive range of chemicals including plant and animal toxins to the patients and visitors.
- Students and Parents has been very much satisfied and the placement of students in various hospitals as Drug Medical Officers, Clinical Pharmacists, as well as Pharmacovigilance Officers in various Multinational companies and as Clinical Trial Coordinators in reputed Multinational Pharmaceutical companies depicts the efforts and success of the Institute in the area.

Date and Time	20.09.2019 and 2.00pm to 03.30pm
Venue	Seminar hall
Resource Person	Dr.K.Mithra, HR, JR Labs
Number of Participants	44

Objective of the practice:

- Stay abreast of emerging pharmaceutical technologies.
- Monitor advancements in drug development and manufacturing processes.
- Understand evolving regulatory requirements affecting the pharmacy sector.
- Stay informed about breakthrough research in pharmaceutical sciences.
- Track changes in healthcare policies impacting pharmacy practice.
- Stay updated on novel drug therapies and treatment protocols.
- Follow developments in pharmacy informatics and digital health.
- Foster a deep understanding of pharmacogenomics and personalized medicine.
- Keep tabs on pharmaceutical market trends and dynamics.

The context:

- Pharmacy students must prioritize staying abreast of industry trends to navigate the dynamic landscape of pharmaceuticals and healthcare. The pharmaceutical sector undergoes continual advancements in drug development, technology, and regulatory policies. Students should regularly engage with reputable sources like scientific journals, industry publications, and online platforms to stay informed about breakthrough medications, emerging therapies, and evolving treatment protocols.

- Following key organizations, attending conferences, and participating in webinars can offer insights into innovations, research findings, and networking opportunities. Understanding the impact of digital health personalized medicine and regulatory change is crucial. With the rapid pace of change, proactive commitment to ongoing education ensures pharmacy students remain well-equipped to contribute effectively to patient care and excel in their careers.

The practice:

- In the dynamic field of pharmacy, staying updated on industry trends is paramount for students to thrive and excel in their academic and professional journeys.
- As the healthcare landscape continually evolves, so does the pharmaceutical sector, influenced by advancements in technology, regulatory changes, and shifting patient needs.
- Pharmacy students must remain vigilant in monitoring these trends to ensure they are well-equipped with the latest knowledge and skills.
- Engaging with reputable journals, attending conferences, and participating in industry forums provide avenues for students to access valuable insights and network with professionals.
- Collaborating with mentors and established practitioners can also offer real-world perspectives, helping students bridge the gap between academic theory and practical application.
- By actively seeking out and staying abreast of industry trends, pharmacy students position themselves to become adaptable professionals, capable of navigating the complexities of a rapidly evolving healthcare environment.
- This proactive approach not only enhances their academic experience but also equips them with the knowledge and foresight needed to contribute meaningfully to the advancement of pharmacy practice in the future.

Evidence of success:

- Staying updated on industry trends is paramount for pharmacy students, as evidenced by the enhanced success they achieve in both academic and professional domains.
- In academic pursuits, students who actively engage with the latest developments in pharmaceuticals, healthcare policies, and technological advancements demonstrate a deeper understanding of their field.

- Employers increasingly seek individuals with a proactive approach to learning and adapting to the dynamic healthcare landscape. Pharmacy students who stay updated on industry trends are better equipped to provide informed patient care, navigate evolving regulatory frameworks, and implement cutting-edge technologies in their practice.
- The ability to apply current knowledge not only fosters career advancement but also contributes to improved patient outcomes, reinforcing the tangible impact of staying attuned to industry trends on the success of pharmacy students.

Problems encountered and resources required:

- Pharmacy students face several challenges when striving to stay updated on industry trends. The rapid evolution of pharmaceuticals and healthcare demands constant vigilance, making it challenging for students to keep pace with emerging advancements. Limited access to reliable information sources, such as academic journals and industry publications, can hinder their ability to stay well-informed.
- Additionally, the dynamic nature of the pharmaceutical landscape requires continuous learning, posing a time-management dilemma for students already engaged in rigorous academic schedules. To address these challenges, students require enhanced access to comprehensive databases, subscription services, and reputable educational platforms. Collaborative efforts between educational institutions and industry stakeholders are crucial to establishing partnerships that provide students with internships, mentorship programs, and networking opportunities.
- Furthermore, fostering a culture of curiosity and adaptability within pharmacy education can empower students to proactively seek out and apply the latest industry knowledge, ensuring their preparedness for the ever-evolving field.

1. This electronically generated score card is the official result declared by NTA and does not require any signatures.
2. The NTA Score indicates the percentage of candidates that have scored EQUAL TO OR BELOW (same or lower raw marks) candidates. The NTA scores of a Candidate have been calculated as follows:

$$\frac{100 \times \text{Number of candidates appeared in the examination with raw marks EQUAL TO OR LESS than the candidate}}{\text{Total number of the candidates appeared}}$$

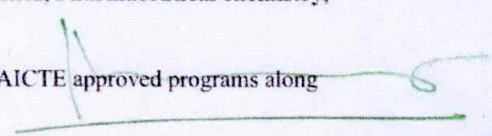

NTA score is not the same as percentage of marks obtained.

3. A National Merit Ranking (All India Rank) has been arrived based on the Marks secured against Total Marks. In case total marks are same for more than one candidate, the ranking has been done on marks obtained in Pharmaceutics, Pharmaceutical chemistry, candidates having less negative responses and candidate older in age.

4. The admission authorities are advised to use score awarded to the students for allotment of seat in the AICTE approved programs along with the other criteria that may exist, as applicable.

5. Candidate's particulars including Category and Person with Disability (PwD) have been indicated as mentioned by the candidate in the online application form.

Dear palla tharun,

It is my pleasure to offer you admission to the UMBC Graduate School as a student in the **Health Information Technology** program for the **Fall 2022** semester. You are now eligible to take courses at UMBC towards the completion of your degree program. We were impressed by your qualifications, and hope you will find graduate education at UMBC challenging and rewarding. Your Graduate Program Coordinator will be in touch with you soon regarding program-specific orientation and advising requirements.

Please indicate whether or not you have accepted your admission by logging into your myUMBC account and following the prompt on the main page. **You must activate your account and accept your admission in order to register for classes.** To do this, visit <https://webadmin.umbc.edu> and click the "Create My Account" link. You will need to provide your birth date and campus ID to activate your student account.

Your campus ID is **FS83299**.

As you prepare for your arrival at UMBC, there are some health related requirements that you must meet before you arrive on campus. Visit the [University Health Services website](#) and check the "Incoming Students" section to review and submit required health forms. The Graduate School Catalog and Policies and Procedures are available at [our website](#).

UMBC's Office of International Education Services (IES) will issue you the appropriate document to obtain a visa from the American Consulate. The IES office will reach out to you shortly after you are admitted. For more information, please visit the [IES website](#).

Residential Life provides temporary housing accommodations on campus to UMBC graduate students who will be participating in campus orientation programs. Please be aware that temporary housing is available on a limited basis, and is not guaranteed. For more information about housing registration, availability and costs please [click here](#), or contact Residential

Life at reslife@umbc.edu.

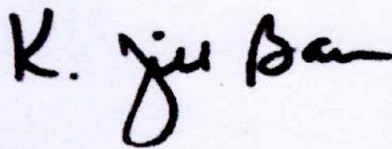

Most international graduate students live off-campus during the academic year. Information regarding off-campus housing and public transit is available through [Off-Campus Student Services](#).

While you are eligible to enroll and register for classes, we will still need the following documents from you before you are fully admitted to the Graduate School:

Please submit these documents directly to the Graduate School before the end of your first semester.

If you have further questions about your admission, please contact the Graduate School's main office at 410-455-2537, or email gradschool@umbc.edu. We are excited to welcome you to UMBC. Congratulations again on your admission.

Sincerely,

K. Jill Barr, J.D., M.Ed.
