ABOUT Avanthi Educational Society

Avanthi Educational Society's, was established in the year 1991 with a vision to develop highly skilled professional with ethics & human values. Today the society has 20 higher educational institutes under its umbrella. This includes ten arts, commerce and science colleges, six engineering colleges, two management institutes, and two pharmacy colleges.

ABOUT INSTITUTE

Avanthi Institute of Pharmaceutical Sciences was established in the academic year 2007-08 with the approval of PCI, and affiliated to JNTU, Hyderabad. We are committed to provide a positive and professional learning environment where all students are inspired to strive for excellence in order to achieve their potential as dignified and competent pharmacist, technology innovators, managers and leaders in a global society through a cohesive network for the parents, students, college staff and industry.

ABOUT DEPARTMENT

The Department of Pharmacy is a specialized academic unit focused on the study of pharmaceutical sciences, drug discovery, and drug development. It educates students in medication use, pharmaceutical research, and patient care. Faculty engage in cutting-edge research to advance drug development and improve healthcare outcomes.

COURSE CONTENT

- High-Throughput Screening (HTS)
- Omics Technologies
- Organ-on-a-Chip Models
- Optogenetics and Chemogenetics
- Pharmacogenomics
- Imaging Techniques

RESOURCE PERSONS

CH. Ratnakar, Associate Professor,

Gurunanak Institutions Technical Campus,
Hyderabad

COURSE FEE

Course registration fee:

Student : Rs. 300/-

HOW TO APPLY/REGISTRATION

Scanned application forms should be send through e-mail for conformation before the Scheduled programme date & Spot Registration available .

E-mail: aipsgcourses@gmail.com

Fee shall be paid by cash and duly filled applications in the prescribed format should be submitted to the coordinator on or before the programme date.

ABOUT THE PROGRAM

The seminar on Novel Techniques and Research Methods in Experimental Pharmacology explores cutting-edge approaches to drug discovery and development. Attendees delve into high-throughput screening, omics technologies, and organ-on-a-chip models for more efficient drug testing. Optogenetics, pharmacogenomics, and advanced imaging techniques are also discussed to elucidate drug mechanisms and improve personalized medicine strategies. The seminar provides insights into how emerging technologies such as nanotechnology and microbiome research are revolutionizing drug delivery and understanding of drug-microbiome interactions.

ELIGIBILITY :

Eligibility criteria for B Pharmacy typically include completing 10+2 with Physics, Chemistry, and Biology/Mathematics. M Pharmacy candidates usually require a B Pharmacy degree with a specified minimum percentage. For Pharma D, completion of 10+2 with Physics, Chemistry, and Biology/Mathematics is necessary. Specific institutions may have additional requirements.

ABOUT THE PROGRAM

The seminar on Generic Drugs Research aims to delve into pivotal aspects of pharmaceutical development, regulatory compliance, and therapeutic equivalence. Through discussions on bioequivalence studies, pharmacokinetics, and cost-effectiveness analyses, attendees will gain insights into ensuring quality and accessibility of generic medications. Additionally, topics such as post-marketing surveillance and pharmaceutical innovation will be explored to address evolving challenges and opportunities in the generic drug landscape. The seminar serves as a platform for researchers, policymakers, and industry stakeholders to collaborate and advance knowledge in this crucial area of healthcare.
