**Description :**

One in three children in low and middle-income families suffers from chronic undernutrition. Without a sustainable source of income at a sufficient level, young children and their families do not have access to basic food. Therefore, to support people suffering from hunger and starvation across our country, AIPS has initiated the idea to distribute food to needy people. Through the food distribution activities, our major goal is to eradicate hunger across our country. To reach our goals in serving to poor communities, we need the support from each one in the society in their best possible ways as it is very essential and such noble tasks can be executed well together. The AIPS students successfully distributed the ration for the poor

Dr. K. Balaji, the principal, all of the faculty members, several students, M. Rajsekhar, the NSS coordinator, all of the girls, and staff gave their insightful remarks.
