6.1.2 Case Study Showing Decentralization and Participative Management

The Institution has adopted the decentralization and participative management in the process of academic and administration. The Top management gives generous freedom and flexibility to the Principal together with the academic council to lead all the academic activities of the college.

They regularly meet and take necessary steps to formulate and implement the perspective plan of the institution. As part of quality improvement and quality initiative the institution and its concern IQAC and College Development Committee and other statutory Committees continuously work on quality improvement.

In the beginning of academic year all faculty members conduct a meeting and discuss the smooth functioning of the institution. Various committees are constituted and responsibilities are assigned to them. Committee Chairman and members of the committee report to the principal and IQAC about the planning and implementation of the decision.

They get the feedback from all the stakeholders of the institution and take steps for further improvements as far as they are within the capacity and recommend the management for further corrective action.

The Administrative and academic duties are controlled by the Principal of the Institution. Head of the department works under the guidance of the Principal and Internal Quality Assurance Cell. The Heads of the Department are given specific duties and responsibilities to attend the day to day routine work.

Every faculty member is involved in the various academic and administrative or other statutory and non-statutory committees. Internal Quality Assurance Cell monitors the academic and administrative activities. Mentorship is introduced in all and it is effectively monitored by the Principal.

NGL - DATA ENTRY TEMPLATE:

The screenshot shows a web-based data entry application. At the top, there is a navigation bar with links: Technical Processing, Database Administration, Serials Management, OPAC, Administration, Queries, LIBRARY, and Reports. Below this is a header area with a 'Quick Import From' section containing 'Open Catalog' and 'ISBN Search' buttons, and a 'Search Open Catalog' button. A 'Choose Template' section includes a checked 'Unico Catalog' option, 'Open Archive', and 'Other actions'. There are also dropdown menus for 'Select Import Format' and 'Sort In'. Further down, there are dropdowns for 'Geographic Level' (Monograph/Serials), 'Material Type' (Language material), and 'Geo Location' (State Library). A 'Name Of Collection' dropdown and buttons for 'More General Information' and 'Add Physical Description Information' are also present. The main area is a table with columns 'Field', '#', and 'Data'. The table contains the following fields: Title, Main author, Joint author, ISSN, Edition, and Place of Publication. To the right of the table is a vertical toolbar with buttons: Print, Delete, List, Sign, Apply Controls, Check All, Add Field, Add Subfield, and Add Default Subfield.
