BEST PRACTICE:

Title of the practice: STCE (Sensitization towards career enrichment)

Objectives of the practice:

- The "career guidance, Training & Placement Cell" at Avanthi Institute of Pharmaceutical Sciences aims to improve general technical skills and keep a high placement record in order to prepare students for success in the competitive world. By providing them with the tools they need to locate employment and finally land their dream job, this cell works diligently to support students in pursuing their career aspirations.
- Sensitization towards career enrichment (STCE)" is a division under the career guidance, training, and placement cell that enhances students' language, technical, and communication skills. To help students improve their logical, analytical, and verbal skills, STCE arranges training sessions and programs. This is how a strong collaboration between students, faculty, alumni, and industry is established.
- To assist students in developing their linguistic, logical, and analytical abilities, STCE organizes activities and workshops, holding industry-focused workshops and seminars to provide students a comprehensive understanding of possible career options and real-world applications. creating customized professional development programs with short- and long-term goals based on students' objectives.

The context:

- These services are intended to offer students pursuing careers in pharmacy full support, taking into account the ever-changing pharmaceutical landscape. Pharmacy students confront the difficulty of matching their academic goals with the quickly changing demands of the field, as the pharmaceutical industry is continuously changing as a result of scientific breakthroughs, regulatory modifications, and developing technology.
- With their insights into specialized options, industry trends, and the variety of career trajectories accessible within the pharmaceutical domain, career advising services in the college context provide students with customized counsel to help them manage these difficulties. In order to guarantee that students gain the practical skills required for success in their chosen industries, augmentation services offer focused skill development programs. the incorporation of internship programs, contacts with business leaders, and partnerships with pharmaceutical firms.

The practice:

- The career advisory and placement cell work in conjunction with other departments to handle both non-technical and technical procedures. In the modern healthcare and

pharmaceutical industries, providing career guidance and augmentation services to pharmacy students is becoming more and more important. Pharmacists must keep up with the most recent developments, legal modifications, and range of employment options in the pharmaceutical industry, which is changing quickly.

- For pharmacy students, career advice services offer focused direction on negotiating this challenging environment by providing information on required skill sets, industry trends, and specialization opportunities. Furthermore, augmentation services emphasize the development of skills by providing customized courses to advance proficiencies in areas like pharmaceutical research, regulatory affairs, and healthcare administration. These services are essential for helping pharmacy students match their career objectives with the changing demands of the pharmaceutical industry, in addition to helping to maximize academic and experiential learning.
- Through the implementation of a comprehensive career development approach, these services enable pharmacy students to become well-rounded professionals capable of making significant contributions to the changing healthcare environment. From the beginning of their education, our pupils have received guidance regarding career options and higher education.

Problems encountered:

- Maintaining career guidance current and relevant can be difficult due to the rapid changes in the work market that could make certain advice out of date.
- Certain students may find it difficult to afford the services of a premium career advisor or to attend events that could be very beneficial to their professional growth.
- Inadequate channels of communication between advisers and students might result in miscommunication, misconceptions, and uncertainty while making decisions about careers.

Resources required:

- Programs that match students with alumni who may advise, guide, and suggest possible career choices for them based on their experiences.
- Web sites that are easy to use and offer job postings, internships, and articles about careers to keep students informed.
- Networks, informational interviews, and mentoring between students and professionals are made possible by platforms and events that support these connections.

AN ASSESSMENT ON FEEDBACK SYSTEMS

Name of the Program : An assessment on feedback systems.
Date: : 13-11-2021
Time: : 10 Am to 12:00 noon.
Venue: : College Seminar Hall.
Resource Person : Dr. M. Ramakrishna
Number of Participants: : 89

Title of the practice: A Session on an assessment on feedback systems.

Objectives of the practice:

Avanthi Institute of pharmaceutical sciences-initiated career guidance, training, and placement cell in the year 2018. The main objectives of this cell are:

- Improve user experience by providing prompt feedback.
- Adapt product/service quality to consumer feedback.
- Determine which areas need to be improved and optimized.
- Encourage a culture that is always improving.
- Assure client happiness by quickly resolving issues.
- Analyze and assess how well the modifications that have been made are working.
- Create a methodical process for gathering input.
- Promote candid dialogue between users and developers.
- Keep tabs on and evaluate user sentiment to make wise judgments.
- Boost openness in the procedures used in product development.

The context:

- Encouraging students to study in productive contexts requires a strong context feedback system. This technique comprises offering prompt, helpful feedback that takes into account the particular requirements and learning preferences of each learner. feedback is an essential tool for formative and summative evaluations in the educational setting since it helps students recognize their areas of strength and growth.

The practice:

- Feedback systems are vital to students' educational experiences because they operate as a dynamic loop that fosters continual improvement. These tools give students insightful information on how they are performing academically and provide them a road forward for growth. Delivering feedback on time is vital to its success since it lets students discover their areas of strength and progress immediately away.

- Constructive criticism is an integral part of any effective feedback system. It not only highlights errors or areas of ignorance, but it also offers guidance on how to do better. By focusing on specific examples, teachers may help students grasp concepts and skills more successfully and provide feedback that is more realistic. Furthermore, feedback needs to be customized to the individual preferences and learning styles of each learner in order to maximize its effectiveness. Impact A feedback system that works well allows teachers and students to communicate with one another.
- This conversation helps both parties comprehend one other's expectations, objectives, and difficulties. It is recommended of the students to actively engage in this process by critically analysing their own work and establishing doable goals for development. As a result, the feedback loop turns into a cooperative endeavour that promotes a sense of accountability and ownership for academic achievement.
- Feedback systems aid in students' overall growth in addition to their academic success. Acknowledging and applauding accomplishments, no manner how modest, encourages children to pursue greatness and promotes positive habits. In addition to fostering resilience, responding to setbacks with compassion and support teaches pupils the value of tenacity in the face of adversity.
- Influencing the way in which pupils learn. It acts as a catalyst for development, communication, and character building in addition to evaluation. Prioritizing prompt, insightful, and tailored feedback establishes a positive feedback loop that drives students' progress and achievement. To sum up, a well-designed feedback system is essential.

Evidence of Success:

- This knowledge enables individuals to improve their study techniques, meet obstacles head-on, and make reasonable goals. A well-designed feedback system also encourages students to actively participate in their learning, which instills a feeling of accountability and responsibility.
- Better academic results are tangible proof of accomplishment. Pupils who get useful feedback systems typically demonstrate improved critical thinking and problem-solving skills as well as a better understanding of the material. Furthermore, the favourable influence goes beyond academics to affect students' motivation and sense of self. In addition to highlighting accomplishments, constructive criticism offers pointers for conquering challenges and fostering resiliency and tenacity.
- Additionally, an atmosphere that values feedback fosters a culture of continuous development by helping students develop the habit of seeking and accepting feedback, which will help them succeed in their academic pursuits and beyond.

Problems encountered and resources required:

- When putting in place a feedback system that is beneficial to students' education, there are a number of challenges to overcome. One major issue is that it can be challenging for students to engage with the content in a productive way when they are faced with severe criticism because they may feel defensive or resistive.
- Furthermore, teachers may find it difficult to provide individualized feedback due to the large number of kids in a classroom. Technical issues might come up, including as organizing and processing the data produced by feedback systems. Furthermore, it is

imperative that educators engage in ongoing professional development to improve their ability to offer feedback; however, this needs a committed resource.

- A complete approach to resolving these issues include making investments in cutting-edge technology for expedited feedback procedures, giving instructors access to continuous professional development opportunities, and establishing a welcoming learning atmosphere that encourages candid communication. More teaching assistants or lower class sizes might be funded in order to provide more individualized feedback.

A REPORT ON TRAINING FOR INTERNSHIPS

Name of the program	: Training for internships
Date	: 08-10-2021
Time	: 10:00 AM to 12:00 Noon
Venue	: College Seminar Hall
Resource Person	: Dr. P.Suresh
Number of Participants	: 97

Title of the practice: Training for internships.

Objectives of the practice:

Avanthi Institute of pharmaceutical sciences-initiated career guidance, training, and placement cell in the year 2018. The main objectives of this cell are:

- Skill Development: Acquire and improve industry-relevant practical skills.
- Practical Experience: Acquire practical experience in a work setting that is professional.
- Industry Exposure: Learn about standards, conventions, and practices in the industry.
- Application of Knowledge: Use academically acquired theoretical knowledge in real-world situations.
- Team Collaboration: Acquire the skills necessary to function well in a group and comprehend the dynamics of professional cooperation.
- Problem-Solving Skills: Acquire the ability to solve problems quickly and electively.
- Networking Possibilities: Grow your professional network by making contacts in the industry.

The context:

- An essential part of academic and professional development is internship training, commonly referred to as an internship or work placement. It acts as a link between the theoretical knowledge learned in academic settings and the practical abilities needed in everyday work settings. Through this practical experience, trainees or students can apply what they have learned in the classroom to real-world workplace situations and get insights into the procedures, difficulties, and practices of the industry.
- Furthermore, internship training gives people the chance to investigate their career interests and gain useful contacts in the business world and possibly safe job prospects after graduation. All things considered, internship training is essential for developing well- rounded, industry-ready professionals and facilitating a smooth transition from academic environments to the ever-changing business environments.

The practice:

- A key element of academic curricula is internship training, which is intended to close the gap between theoretical knowledge and real-world application in practical settings. Students' skills and competencies are greatly shaped by this practical experience, which also helps them get ready for the challenges of the working world. Students receive exposure to the daily workings of industries during internship training, which helps them understand the nuances of their chosen field.
- Through internship training, students gain practical exposure that enables them to observe the application of theoretical concepts in a dynamic, live setting. With its deeper understanding of industry practices, methodologies, and the integration of various technologies, this experiential learning is invaluable. Additionally, internship training gives students a chance to improve their critical thinking, problem-solving, and dynamics of teamwork, encouraging a comprehensive development that extends outside the walls of conventional classroom instruction.
- Because internship training is immersive, students can engage with seasoned professionals and learn about ethics, workplace etiquette, and best practices in the industry. Their technical proficiency is improved by this exposure, which also instils professionalism and adaptability. Additionally, students frequently face real-world problems that call for creative solutions, which forces them to think quickly and apply what they have learned to real-world situations.
- In summary, internship training is an essential component of academic programs that gives students a rare chance to apply their theoretical knowledge to real-world situations. This practical experience gives them the skills and mindset needed to succeed in the cutthroat environment of the working world, eventually forming them into professionals who are well-rounded and prepared for the workforce.

Evidence of success:

- These assignments provide as verifiable proof of the abilities learned during the training session and can be included in portfolios. Or CVs. Because employers highly value practical experience, improved job placement rates for participants are another indication of the beneficial effects of internship training.
- Incorporating contemporary technologies and industry best practices into training further guarantees that participants stay up to date on trends, which makes them valuable assets to potential employers. The whole development of individuals-from improved technical skills to increased employability and professional competence-is, in essence, the proof that internship training is successful.

Problems encountered and resources required:

- People undergoing internship training are exposed to a wide range of difficulties, including logistical, interpersonal, and technical ones. Technical challenges can include learning new software or hardware, debugging malfunctioning equipment, and adjusting to different engineering processes.
- Cultural differences, communication breakdowns, and team dynamics can all lead to interpersonal problems in the workplace. Furthermore, logistical challenges like organizing schedules, effectively managing time, and negotiating organizational hierarchies can be quite difficult.
- The technical tools needed for internship training success include a variety of devices, from sophisticated machinery to specialized software. Sufficient mentoring and direction from seasoned experts are essential, as are full training materials, workshops, and pertinent literature.

A Report on The Centre for Professional Development in Pharmacology

Name of the Program : The Centre for Professional Development in Pharmacology.
Date: : 18-11-2021
Time : 10:00 AM to 12:00 Noon.
Venue : College Seminar Hall.
Resource Program : Mr.Sreehari
Number of Participants : 89

Title of the practice: The Centre for Professional Development in Pharmacology.

Objectives of the practice:

Avanthi Institute of pharmaceutical sciences-initiated career guidance, training, and placement cell in the year 2018. The main objectives of this cell are:

- Through specialized training programs, increase the expertise of pharmaceutical specialists.
- Encourage the development of expertise in fields such as formulation, regulatory affairs, and drug research.
- Give students practical experience with cutting-edge medical technology.
- Provide professional networking opportunities where they may share industry knowledge.
- Encourage ongoing education in newly developing therapeutic fields.
- Provide specialized workshops that address the most pressing pharmacological issues.
- Provide participants with up-to-date knowledge on the most recent developments in pharmaceutical R&D.
- Develop your leadership abilities for efficient project administration.
- Promote multidisciplinary cooperation to deal with challenging problems in healthcare.

The context:

- The Center for Pharmaceutical Professional Development (CPPD), which is committed to enhancing the skills and knowledge of professionals employed in the pharmaceutical industry, is a vital institution. The purpose of CPPD's founding was to advance both innovation and quality. It offers a vast array of seminars, training sessions, and other resources that are especially made to meet the evolving needs of pharmaceutical professionals.
- By providing a space for networking, skill development, and information sharing, the center plays a crucial role in producing knowledgeable and competent people.

inventive employees in the pharmaceutical industry who promote the growth and development of the industry.

- The CPPD, a mark of distinction, continues to lead the charge in raising the standard for career advancement in the pharmaceutical sector.

The practice:

- The Practice Center for Pharmaceutical Professional Development is an innovative facility dedicated to enhancing the skills and knowledge of professionals working in the pharmaceutical industry. Situated at the intersection of academics and industry, this establishment promotes continuous learning and advancement in a field experiencing significant transformation.
- Developing excellence in pharmaceutical professionals via practical training, team-based research projects, and state-of-the-art educational offerings is the Practice Center's core mission. Modern facilities at the center offer an immersive setting where people may participate in simulated real-world settings, honing their abilities and staying ahead of industry trends.
- A fundamental component of the Practice Center's ideology is collaboration. Through the consolidation of specialists from many fields within the pharmaceutical industry, the center enables multidisciplinary collaboration and information sharing. This collaborative approach reflects the dynamic and interrelated character of the pharmaceutical business while also enriching the learning process.
- Apart from its dedication to technical expertise, the Practice Center also prioritizes ethical and regulatory aspects. Professionals who participate in the center's programs get a thorough awareness of the legal and ethical frameworks that control the pharmaceutical industry. With this all-encompassing approach, graduates are guaranteed to be skilled not just in their technical skills but also in the ethical duties that accompany influencing the direction of healthcare.

Evidence of success:

- In the realm of pharmaceutical education and training, the Center for Pharmaceutical Professional Development (CPPD) is a shining example of achievement. CPPD was founded with the goal of empowering and developing professionals in the pharmaceutical sector, and it has continuously fulfilled this objective. The numerous accomplishments of its graduates, who have advanced to important positions within the pharmaceutical industry abroad, serve as tangible proof of its success.
- The honors and distinctions that CPPD has been bestowed with from industry groups and accrediting agencies serve to reinforce its reputation as a preeminent hub for pharmaceutical professional development. To put it simply, CPPD's long-term success is evidence of its constant commitment to quality, making it a pillar for young pharmaceutical professionals looking to succeed in a field that is always changing.

Problems encountered and resources required:

- Numerous problems make it more difficult for the Center for Pharmaceutical Professional Development to achieve its goal of improving the skills and knowledge of professionals in the pharmaceutical industry. The rapid advancement of both legislation and technology is a significant issue that calls for regular curriculum revisions.
- The Center for Pharmaceutical Professional Development's consumed success and its dedication to promoting excellence in the pharmaceutical workforce depend on this contribution.

A REPORT ON PROGRAM FOR PLACEMENTS

Name of the program	: Program for Placement.
Date:	: 21-03-2022
Time	: 10.00AM to 12:00 Noon.
Venue	: College Seminar Hall.
Resource Person	: Medi Assist TPA Ltd.
Number of Participants	: 126

Title of the practice: Program for placement.

Objectives of the practice:

Avanthi Institute of pharmaceutical sciences-initiated career guidance, training, and placement cell in the year 2018. The main objectives of this cell are:

- Facilitate seamless transition from education to employment.
- Provide students with practical exposure to industry dynamics.
- Enhance students' employability skills through real-world experiences.
- Foster industry-academia collaboration for mutual benefit.
- Assist students in identifying and pursuing career paths aligned with their skills.
- Develop a talent pipeline for businesses seeking skilled professionals.
- Offer opportunities for networking and professional connections.

The context:

- A placement program is a structured initiative designed to connect individuals, typically students or recent graduates, with valuable work opportunities within their chosen field. These programs serve as a bridge between academic learning and practical, real-world experiences. Companies often collaborate with educational institutions or external agencies to facilitate these placements, offering participants a chance to apply theoretical knowledge in a professional setting.
- The main objectives are to improve participants' abilities, give them practical experience, and facilitate a more seamless entry into the workforce. Through internships, co-ops, or apprenticeships, participants in placement programs can expand their professional networks, learn about industry practices, and hone their career goals.

The practice:

- Placement programs play a crucial role in bridging the gap between academic knowledge and practical skills for students. These programs serve as a vital component of the educational curriculum, offering students an opportunity to apply theoretical concepts in real-world scenarios.
- The primary objective of placement programs is to prepare students for the professional landscape by providing hands-on experience in their respective fields. During these programs, students are often placed in companies or organizations relevant to their academic disciplines.
- This allows them to gain practical exposure, understand industry dynamics, and develop a deeper understanding of their chosen field. The experience gained during placement programs enhances students' problem-solving abilities, critical thinking skills, and decision-making processes, which are essential attributes in the professional world. Furthermore, placement programs serve as a platform for students to network with industry professionals and potential employers.
- Building connections during these programs can open doors to future job opportunities and career advancements. The exposure to real work environments also helps students identify their strengths and areas of improvement, aiding them in making informed career choices. Apart from benefiting students, placement programs are advantageous for companies as well.
- In conclusion, placement programs play a pivotal role in shaping the professional journey of students by providing them with practical experiences, enhancing their employability, and fostering collaboration between academia and industry. These programs contribute significantly to the holistic development of students, preparing them for the challenges and opportunities of the ever-evolving professional landscape.

Evidence of Success:

- Over the past several years, an overwhelming majority of our students have secured placements in reputable companies, demonstrating the program's ability to connect students with valuable opportunities in the professional world. Moreover, the positive feedback we receive from participating organizations is a strong testament to the quality of our program.
- Employers consistently praise the preparedness, skills, and work ethic of our students, indicating that our placement program not only facilitates student success but also meets the needs of industry partners.
- Additionally, the long-term success stories of our alumni further underscore the positive impact of the placement program. Many graduates who secured positions through our program have gone on to achieve notable career milestones, showcasing the enduring value of the experiences and connections gained during their placements.

- In conclusion, the robust placement rates, positive employer feedback, and the success stories of our alumni collectively provide compelling evidence of the effectiveness and impact of our placement program in shaping the professional journeys of our students.

Problems encountered and resources required:

- Implementing a successful placement program often comes with its fair share of challenges. One common issue is the difficulty in aligning the diverse needs and expectations of both employers and job seekers. Employers may seek specific skill sets, while candidates may struggle to meet these requirements.
- Bridging this gap requires a thorough understanding of industry demands and effective communication channels. Additionally, logistical hurdles such as organizing interviews, managing candidate databases, and ensuring a smooth onboarding process can pose challenges.
- Resource-wise, a robust technological infrastructure is crucial for managing data efficiently, coordinating interviews, and providing seamless communication. Adequate staffing and trained personnel are essential for conducting outreach, facilitating employer partnerships, and supporting candidates.

A Report on a Guide For Technology In Pharmacy

Name of the Program : Guidance for Technology in pharmacy.

Date : 27-01-2022

Time : 10:00 AM to 12:00 Noon.

Venue : College Seminar Hall.

Resource Person : A. Anil Kumar

Number of Participants: : 89

Title of the practice: Guide for Technology in Pharmacy

Objectives of the practice:

Avanthi Institute of pharmaceutical sciences-initiated career guidance, training, and placement cell in the year 2018. The main objectives of this cell are:

- Oiler complete prescription assistance.
- Assure proper filling of prescriptions.
- Show that you are an expert at making medications.
- Make correct use of pharmaceutical computations.
- Learn acronyms and vocabulary used in pharmaceuticals.
- Gain expertise in inventory control.
- Recognize and abide by moral and legal requirements.
- Establish efficient channels of contact with medical experts.
- Process prescriptions with technology.

The context:

- Pharmacy technology has evolved significantly, paying a pivotal role in modern healthcare systems. The integration of advanced technologies has streamlined various aspects of pharmaceutical practices, enhancing efficiency and patient care. Automated dispensing systems, electronic health records (EHRs), and tele pharmacy services have revolutionized how medications are managed and distributed.
- Automated dispensing machines ensure accurate medication dispensing, reducing errors and improving patient safety. EHRs enable seamless communication among healthcare providers, ensuring comprehensive and up-to-date patient information. Tele pharmacy services extend pharmaceutical care to remote or underserved areas, promoting accessibility and continuity of care.
- These technological advancements not only enhance the overall pharmacy workflow but also contribute to improved patient outcomes by fostering precision, accessibility, and collaboration in the field of pharmaceutical care. As pharmacy technology

continues to evolve, it remains a key player in shaping the future of healthcare delivery and medication management.

The practice:

- Pharmacy technology is a rapidly evolving subject that integrates science, technology, and patient care, and it is vital to the healthcare system. A variety of duties that guarantee the effective and safe administration of pharmaceuticals to patients fall under the purview of pharmacy technicians, who are essential members of the pharmacy team.
- These experts collaborate closely with pharmacists to handle medicine inventories, fill prescriptions, and offer crucial support in a range of healthcare settings. They do this by utilizing their technological and pharmacological knowledge. The utilization of cutting-edge computer systems for patient data entry and management, precise prescription processing, and inventory control is a crucial component of pharmacy technology.
- Pharmacy technicians need to be very skilled communicators and people in addition to their technical talents. In order to respond to questions, offer pharmaceutical advice, and guarantee regulatory compliance, they must effectively communicate with patients, healthcare providers, and insurance companies. Pharmacy technicians are working with pharmacists to improve patient outcomes by becoming more involved in pharmaceutical treatment management as the healthcare environment changes.
- Moreover, pharmacy technicians work in hospitals, long-term care homes, and specialty pharmacies in addition to the typical retail environment. Technicians may be involved in sterile product preparation, drug compounding, and clinical pharmacy services in these varied settings.

Evidence of success:

- Pharmacy technology has emerged as a transformative force within the healthcare sector, demonstrating unequivocal success in streamlining processes, enhancing patient care, and optimizing overall efficiency. The integration of automated systems, such as robotic dispensing units and computerized order entry systems, has significantly reduced medication errors, ensuring patient safety and fostering trust in the healthcare system.
- Moreover, the implementation of electronic health records (EHRs) in pharmacy practice has revolutionized data management and communication among healthcare professionals. This digitalization has expedited prescription processing, improved inventory management, and facilitated seamless collaboration between pharmacists and other healthcare providers, leading to enhanced patient outcomes.
- The real-time access to patient records enables pharmacists to make informed decisions, prevent adverse drug interactions, and personalize medication regimens based on individual health histories. Furthermore, the advent of tele pharmacy services has extended the reach of pharmaceutical care to remote and underserved areas, ensuring access to medications and professional advice.

- The efficiency gains achieved through pharmacy technology have not only increased the capacity of healthcare facilities but have also contributed to cost savings, making quality healthcare more accessible. In conclusion, the evidence of success in pharmacy technology is undeniable, with its positive impact reverberating across the healthcare landscape, promoting safety, efficiency, and improved patient outcomes.

Problems encountered and resources required:

- Pharmacy technology faces several challenges that impact its seamless integration into healthcare systems. One significant issue is the constant evolution of pharmaceuticals and the need for sophisticated information systems to manage vast databases of drugs, their interactions, and patient histories.
- This demands regular updates and maintenance, posing a challenge in terms of time and resources. Additionally, interoperability issues between different pharmacy technologies and electronic health record systems can hinder efficient communication and information exchange.
- Ongoing training programs for pharmacy professionals are essential to ensure they are adept at using the latest technologies. Furthermore, investment in secure infrastructure and cyber security measures is crucial to safeguard patient information and maintain the integrity of pharmacy technology systems.

A Report on Student's Holistic Development via Professional Ethics and Competencies

Name of the Program	: Student's Holistic Development via Professional Ethics and Competencies
Date	: 21-02-2022
Time	: 10 Am to 12:00 Noon
Venue	: Seminar Hall
Resource Person	: Ms. Vydehi Ongole
Number of Participants	: 118

Title of the practice: Student's Holistic development via professional ethics and competencies.

Objectives of the practice:

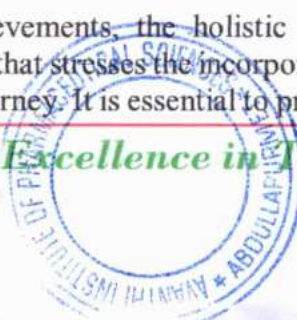

Avanthi Institute of pharmaceutical sciences-initiated career guidance, training, and placement cell in the year 2018. The main objectives of this cell are:

- Encourage kids to have a responsibility for ethics.
- Develop your critical thinking abilities to evaluate moral conundrums.
- Establish a solid basis of ethical conduct in the workplace.
- Gain proficiency in effective communication to facilitate teamwork.
- Encourage a comprehensive comprehension of other viewpoints.
- Promote resilience and flexibility in the face of adversity.
- Develop your leadership skills by making moral decisions.
- Encourage a dedication to self-improvement and lifelong learning.
- Encourage a feeling of civic involvement and social responsibility.
- Give students hands-on experience in areas related to their career goals.
- Incorporate morality into the process of addressing problems.

The context:

- Students are better prepared for academic success as well as meaningful contributions to society that support long-term success, personal growth, and social responsibility when they receive a balanced education that stresses both practical skills and ethical principles.
- Beyond academic achievements, the holistic development of students is an all-encompassing approach that stresses the incorporation of professional values and skills into their educational journey. It is essential to promote ethical concepts and principles

in order to mold students into responsible, socially concerned people. By teaching virtues like integrity, accountability, and respect for differing opinions, teachers aid in the moral and ethical development of their students.

The practice:

- In addition to academic achievements, a holistic approach to student development takes into account the intellectual, emotional, social, and ethical growth of each individual. Students' professional ethics and talents help to shape them into well-rounded individuals who are prepared for the challenges of the working world. Students receive both the knowledge required for their chosen careers and a strong moral compass when ethical topics are integrated into the curriculum.
- Simultaneously, students need to hone their practical skills to succeed in the workforce. Beyond merely knowing academic material, students can apply what they've learned to real-world scenarios through experiential learning and skill development. These skills improve their employability while also advancing their overall personal growth. The ability to engage with others, communicate effectively, and adjust to different situations are all components of a well-rounded skill set.

Evidence of success :

- The integration of professional ethics and talents into students' holistic development is, without a doubt, one of the most significant variables determining success in modern education. Instructors can assist students in strengthening their moral compass, which is crucial for navigating the obstacles of the working world, as well as providing the knowledge required for their chosen fields of study by introducing ethical themes into the curriculum. Through the cultivation of social consciousness, morality, and accountability, this approach equips students with the skills necessary to make moral decisions in both their personal and professional lives.
- By becoming not just good communicators and moral leaders, but also competent professionals, the graduates show the value of holistic growth. Their practical talents and ability to address complex ethical problems make them valuable assets in any professional setting. This promotes the growth of a successful culture that extends beyond academic achievement to include a broader range of social and personal well-being.

Challenges faced and necessary resources needed:

- Although it is a commendable goal, merging professional ethics and abilities with students' holistic development is not without its challenges. First of all, integrating a diverse curriculum with ethical standards can be challenging since different disciplines may hold beliefs that are in conflict with one another. In order to foster a culture of ethical behaviour, it's also critical to address the many cultural backgrounds and value systems of students.

- Another challenge that calls for ongoing professional development activities is the need for licensed instructors who possess knowledge of professional ethics and skills. When it comes to resources, thorough teaching materials and case studies on moral conundrums are crucial for sparking engaging discussions.

Dear Miss Malkaraj,

Application Decision

Coventry University, Coventry University London, CU Coventry, CU London and CU Scarborough come together to form part of the Coventry University Group (the "University") with all degrees awarded by Coventry University.

With reference to your application to study at the University, we are delighted to offer you a place on the following course which is conditional on the 'offer conditions' detailed below being met:-

Course Title	MSc Pharmacology and Drug Discovery (RQF Level 7)
Location	Coventry University
Award on Successful Completion	MSc
Stage of Entry	Stage 1
Academic Course Start Date	11 September 2023
Usual Course Duration	1 Year
Total Anticipated Tuition Fees per Academic Stage/Year of the Course	£18600.00 as advertised for the 2023/2024 Academic Year [use your student ID as a payment reference]
1 st Tuition Fee Payment for the first Academic Stage(the Deposit to secure your place)	£8000.00 to be received by the University as part of your offer conditions. On meeting your other offer conditions and by paying this Deposit, you formally accept your offer of a place with the University.
Remaining Tuition payment for the Academic Stage/Year	£10600.00 to be received by the University by the payment deadlines detailed in the <u>Tuition Fee Terms and Conditions</u> . 50% of remaining tuition fees to be received by the University before 15 th November 2023(TBC). Remaining balance to be received by the University before 16 th January 2024(TBC). See details in the <u>Tuition Fee Terms and Conditions</u> on our website.
Scholarship/Tuition Award (subject to eligibility)	These are awarded based on specific requirements and are subject to eligibility . Please note final confirmation of any awards/scholarships will be confirmed on your CAS statement. *if awarded, this is only valid for your first year of study at the University*
Estimated Living Expenses (based on UKVI Guidance)[<u>UKVI Student Route Policy Guidance</u>]	Estimated at £1023.00 per month

We regularly review our course content, to make it relevant and current for the benefit of our students. Please check the current online course pages to read about the course on which you are being offered a Conditional place.

Offer Conditions

You are required to **accept your offer and pay the £8000 deposit to secure your place onto the course by 14th July 2023**. Refunds may be given if you are refused a student visa (subject to the University Policy and current

UKVI Immigration Regulations). Please note, tuition awards and scholarships cannot be used to fulfil this requirement (they can only be applied towards the fulfilment of your final tuition fee instalment).

You are required to meet all the following conditions **before 24th July 2023** to be eligible to enrol on your course:

- **Complete and pass Credibility Interview assessment.**

You are required to meet the following conditions before enrolment begins on 4th September 2023:

- **Obtain a UKVI Student Visa to permit you to study in the UK.**
- **Ensure you have and bring with you the originals of all the academic documents used in issuing your CAS to you. Photocopies or photos of these on your phone will not be accepted at enrolment**

Refunds may be given if you are refused a student visa (subject to the University Refund Policy and Current UKVI Immigration Regulations).

Important Information-please read

Enrolment onto your course is subject to you obtaining the right to study in the UK on a course at the University.

Confirmation of Acceptance for Studies ("CAS")

On confirmation of evidence that you have met all the entry conditions set out above, save for obtaining a visa, including receipt of your 1st Tuition payment (or an acceptable financial guarantee letter) by our finance department, we will e-mail you your unique CAS number. This will be a PDF copy of the CAS statement generated from the UKVI's SMS portal. You will need your CAS to apply for your student visa. Where applicable, we may be able to issue you an Unconditional Offer Letter as evidence that you have fulfilled all admissions entry requirements

Accepting Our Offer

If you wish to accept this offer and firmly reserve a place you must reply by email quoting your name and reference number (as above) and confirming the course you are accepting. Alternatively, on meeting your offer conditions and by paying the Deposit, on receipt of the Deposit by the University you formally accept your offer of a place with the University.

This offer has been made on the basis that you are an International Student. If this is not correct, this offer may be withdrawn at any time.

If you consider that you are a Home fee paying please contact ukadmissions@coventry.ac.uk who will review this offer.

By accepting your offer of a place, a Student Contract will be formed between you and the University. A copy of the 23/24 Student Contract will be sent in due course, which you will be signing up to when you enrol. A copy of the 22/23 Student Contract can be found on our website. This Offer Letter, the 23/24 Student Contract (and the documents referenced within it), detail the rights and the obligations you will be bound by during your time as a student and contain the obligations that the University will owe to you. You should read the Student Contract before you accept an offer of a place and before you enrol at the University.

Your Student Contract with the University begins as soon as you accept your offer. If you want to cancel your place, you have the right to do so within 14 days of accepting the offer. Within that 14 day cooling off period, you do not have to give a reason for cancelling. However, you must tell us that you want to cancel your place in a clear, written statement. If you need help making your statement clear, you can fill out the cancellation form attached to the enclosed 23/24 Student Contract and email it to applications.io@coventry.ac.uk.

Enrolment Details

ANANTH INSTITUTE OF PHARMACEUTICAL SCIENCES
Coventry City, Warwickshire (UK)
Birmingham, Dist

Further information will be sent to you by email advising you on how to enrol, most importantly:

- Ensure you do bring originals of the academic documents used by the Admissions team to issue your CAS to you [these would be stated on your CAS in the evidence to obtain offer section.] for verification by the University's Compliance team
- Ensure your personal details including your full names and date of birth on your original academic documents **do match** the same details on your passport. If there are any discrepancies between these documents and your passport you need to provide a supporting letter from your previous institution confirming you are indeed the same person who studied with them and was awarded the qualification. Please note the University **does not accept** affidavits and these would not be accepted for enrolment.
- You must have paid a minimum of £8000 to enrol.

Further information can be found at <https://www.coventry.ac.uk/study-at-coventry/get-ready/>

Document Verification – Academics and Evidence of English Proficiency

At enrolment, we will need to verify your academic and English qualifications stated on your CAS or Unconditional Offer letter. You **MUST** bring these original documents with you to enrol onto your course. Photocopies or electronic copies will **NOT** be accepted and you will not be able to enrol. Likewise, you may not be allowed to attend classes if originals of these are not provided.

Tuition Fees

The University will charge tuition fees in accordance with the 'Tuition Fee Terms and Conditions and Refund Policy. **Please ensure that you read the 'tuition fee terms and conditions'**':

<https://www.coventry.ac.uk/the-university/key-information/registry/withdrawal-refunds/>

International Students (Non-EU) are required to pay a tuition fee deposit at each Academic Stage/Year to secure a place. Before you can fully enrol onto your course, or each Academic Stage/Year, **£8000.00 of your full tuition fees for the relevant Academic Stage/Year must be received by the University**. Please ensure you allow sufficient time (approx. 7- 10 working days) for your payment to be processed by your bank, received by the University and credited in to your student account. You may not be able to attend classes and have full access to University facilities, if you do not fulfil all the requirements for enrolment.

If you have to extend your studies beyond the normal duration of the course (e.g. to repeat a year or resit examinations) the University reserves the right to charge you fees at a higher rate during the additional period of study.

This offer is produced on our understanding that you are an overseas fee payer. If for any reason you believe you are a Home student, you need to complete a fee assessment form and provide all supporting documents for us to assess and confirm your fee status. We will need this completed at least 8 weeks to the start of your course. No applications for fee assessment will be accepted if we will not have enough time to process your request and make an informed decision to confirm your fee status before you are enrolled on the course. If you commence your studies as an overseas fee payer, without a fee assessment, you will remain an overseas fee payer for the duration of your course, unless there is a significant change in your immigration status and at the University's discretion.

Please note you may be asked to provide evidence of your financial documents before your CAS is released to you. Your financial documents must meet the requirements for a student visa application. You can find more information here: <https://www.gov.uk/student-visa>

EU Students

If you have the right to live in the UK, including under the UK Government's EU Settlement Scheme or because you are from the Republic of Ireland, you may be exempt from paying international fees and we encourage you to contact us via ukadmissions@coventry.ac.uk to discuss this further. Please note you will be required to provide documentation to prove your fee status eligibility.

Relevant Unspent Criminal Convictions

The University asks all individuals seeking sponsorship by the University to declare any relevant unspent criminal convictions in accordance with its 'Disclosure of Criminal Convictions Policy and Procedure'. If you accept this offer, you will receive an email with a declaration form which you must return to the University for consideration before your CAS will be issued to you.

You can see the 'Disclosure of Criminal Convictions Policy and Procedure' [here](#)

How to Pay (you will need to quote your Student ID number and full names when making payment):

- Online (for the Coventry Campus): [here](#)
- Other methods- see information [here](#)

*** In some instances, we may need to track your payment in order to process your application further, please retain your proof of payment to facilitate tracking of that payment where necessary (Eg. MT103 form).

Please note that students or 3rd parties may no longer be able to pay in Cash deposits at the branch counters at some UK banks. So we strongly advice you make your tuition payment(s) using one of the options highlighted above.

Tuition Awards and Scholarships

If you have been awarded a tuition award or scholarship, you will only be able to apply them onto your final tuition payment (not towards your second instalment). If paying your full fees upfront, at once before enrolment, we recommend that you deduct the value of the tuition award or scholarship before making your full payment. Refunds could take numerous weeks to process.

Academic Progression

If you have ever studied in the UK prior to joining the University, you must provide details of any study undertaken, including results and copies of visas held. You should also inform us of any courses you have failed or failed to complete for any reason. Failure to disclose this may result in visa refusal or withdrawal of our sponsorship of your study in the UK.

Sponsored Students

If you are being sponsored by a UKVI approved organisation (such as your Government or your employer), please ensure you provide us with a formal and acceptable letter of Sponsorship confirming the terms of the sponsorship, in accordance to the tuition and maintenance fees stated above.

Please note that the University does not accept MOHE sponsored student onto Undergraduate courses that are less than 3 years in length.

Completing the under- 18 Parental Consent and Guardianship Form (if required)

If you are under the age of 18 at the time you accept this offer, you need your parent or guardian's consent and you must fill in the form providing us with contact details of a UK-based parent/guardian, who will be accessible to the University should the need arise.

We will not issue your CAS letter if this form is not completed fully and returned to us.

Alternative Offers

Please note that admissions onto our courses are subject to you fulfilling our minimum entry requirements. If we assess your application and qualification(s) (with you providing a portfolio, undergoing a faculty interview where required) for a particular course, we may have offered you an alternative course that is more suitable to you based on your qualifications and skill set. Please note, alternative courses offered may take place at one of our other campuses. Please read the offer details above very carefully.

MDes or MEng Programmes are over four years with the possibility of doing an Industry Enhancement year. This is reflected within the exit titles associated with the four-year courses, either Sandwich BA/BEng (Hons) qualification or an integrated Masters course with an MDes/MEng qualification. The Integrated Masters route is designed for high achieving students to continue their studies and to develop advanced technical skills; as such, achievement attained during level 2 is used to determine suitability for progression. Additionally, a three year BA (Hons) degree is available for those wishing to omit the Industry Enhancement year. We would only issue an offer and CAS for a standard 3 year or 4 year BA/BSc Degree and not for an integrated masters.

If you opt to extend the length of your course after your visa has been granted and this extension does not involve an Industrial placement, you will be required to return to your home country in order to extend your student visa. You will be responsible for covering all additional costs associated with this including visa applications and return travel.

Applying for an ATAS Certificate (if required)

If any of your subjects are listed in the attached ATAS list, you **must** apply and obtain an ATAS certificate (issued by the Academic Technology Approval Scheme), before you apply for or extend your Visa, Entry Clearance, or Extension of Stay. If your course is not listed, it **MAY STILL require ATAS**, so please ensure you check the Home Office website for updates. Please visit <https://www.gov.uk/guidance/academic-technology-approval-scheme> to apply online for your ATAS certificate if required and obtain more information on the scheme.

If an ATAS certificate is required, you will not be granted access to your learning materials or be permitted to enrol onto your course until you provide a relevant ATAS certificate to the University.

Data protection

The University has a comprehensive Data Protection Policy which can be found on our website.

You can find out more about how the University handles student data and your rights in relation to data protection in our Fair Processing Notice for students a copy of which can be found on our website at

<https://www.coventry.ac.uk/the-university/gdpr-and-data-protection/fair-processing-notice-and-ico-registration-numbers/>

It is important that you read this Fair Processing Notice as it will tell you what personal information we collect from you, why, what we do with it and who we may share it with.

Personal Details

Please notify us if you change your address, email or telephone contact details so that we will keep in touch with you until enrolment. Good luck with your preparations and we hope you will be able to join us at the University soon. If you have any further queries please do not hesitate to contact us.

Yours Sincerely

Dear Miss Preethi Reddy Kesireddy

Course: MSc Pharmacology and Biotechnology
Month: September
Year: 2023

We are pleased to make you an unconditional offer of a place on the above course. Please note that this offer letter will expire on 24th April 2023. If you wish to accept this offer you must return the enclosed reply slip and pay the required deposit payment before that date. No student will be allowed to join the course after the start date without the agreement of the course leader.

ATTENDANCE MODE:	Full-Time
START DATE:	September 2023
END DATE:	September 2024
COURSE DURATION:	1 year
FEES FOR ACADEMIC YEAR 2023/4:	16 385 GBP
FEE DISCOUNT **::	2000 GBP
TOTAL FEE PAYABLE:	14 385 GBP

For fees purposes you have been classed as an international student and this status will usually stay with you for the duration of the course.

The tuition fee displayed above is for the full course. If the full course is more than one year in duration, the fee will be divided into annual payments which will then be rounded. This may mean the total fee you pay is slightly higher than the fee stated above. If you take a break in study or have to re-take part of the course, you may also be charged an additional fee and will be notified of this at the time.

Bursaries and Discounts

**We are pleased to inform you that as you are domiciled in a country eligible for a Vice Chancellors Award and are an International fee-paying applicant you are eligible to receive an automatic discount of 2,000 GBP off your course fee. Please note this discount will be deducted from the remaining fee payable after enrolment. You do not have to apply to receive this discount; however, you must meet the criteria and be self-financing. Please note the discount does not apply to sponsored students. For full terms and conditions please visit our website at <https://www.shu.ac.uk/international/fees-scholarships-and-discounts/scholarships-discounts-and-bursaries/automatic-discounts-and-bursaries>

Bursaries and discounts are based on a student being eligible for one offer only. Students who may qualify for more than one bursary or discount, will be eligible to receive one. The highest bursary/discount would prevail. Please note this discount will be deducted from the remaining fee payable after enrolment.

This offer is only applicable to international fee-paying students who do not already have their fee discounted by another agreement, i.e corporate contract, partnership discount or government scholarship.

Fees and Funding

A deposit of 3000 GBP is required in order for you to secure a place on the programme and in order to assist us in our planning of student numbers and to issue your CAS. I enclose details of the methods by which payment of the deposit can be made.

As an international student, you must then pay an additional 5000 GBP as an initial pre-payment of your tuition fee before enrolment. After that the rest of your tuition fee shall be paid in full by you no later than the date specified by our Finance team in your invoice.

In addition to tuition fees you are advised to budget a minimum of 9207 GBP per year (or 1023 GBP per month) to cover accommodation and living expenses during your course, this only applies if you study full time. To arrange accommodation and for further information please contact the Accommodation Team on email accommodation@shu.ac.uk

The deposit will be deducted from your programme fee after invoicing has taken place. If you decide to cancel your place within fourteen calendar days of accepting this offer, then your deposit will be refunded in full. After that date and in any event after the start of the course, the deposit becomes non-refundable, and all or part of the deposit will be retained by us to cover the University's reasonable costs and losses. If you want to cancel your place please complete the statutory cancellation form which can be found at:

Verification of your qualifications and enrolment

Please note that, before you can be fully enrolled, you will need to show the originals, not photocopies, of your entry qualifications at your enrolment event. If your entry qualifications are not in English you must provide a certified translation. Please note if you are not a national of the UK you will need to bring your passport with you to your enrolment session along with your UK Identity Card for Foreign Nationals.

Change of address

In order to ensure you receive all up to date information about your course, please let us know if you change your address at any time.

Support for Disabled Students

If you are disabled (this includes Dyslexia, mental health conditions and medical conditions) you may or may not have indicated this on your application form. In either case, the Disabled Student Support Team are keen to hear from you. If you would like to meet or talk to an adviser to discuss in confidence possible support whilst studying, please ring +44 (0)114 225 3964 (voice/minicom) or email disability-support@shu.ac.uk.

Terms and conditions of your offer

You should note that by accepting an offer of a place on this programme, you will be securing your place on the basis of the University's terms and conditions and other contractual information, (you can view this at <https://www.shu.ac.uk/Study-here/Terms-and-Conditions-and-Student-Regulations>). This information imposes contractual obligations on both you and the University and you must read it before accepting an offer.

Please note, the University is in the process of updating the Student Fees Regulation Policy for 23/24 and the updated policy document will be made available on the University webpage <https://www.shu.ac.uk/international/fees-scholarships-and-discounts/tuition-fees> soon. You are advised to refer to the Fees and Funding section of this letter, which details the deposit amount due to secure your place, and payment amount due ahead of enrolment. If you have any queries regarding the payment of your deposit and/or initial pre-payment of your tuition fee, please contact us using the contact details below.

Obtaining a visa

If you have told us you require a visa to study at Sheffield Hallam University you will be issued with a Confirmation of Acceptance for Studies (CAS) once all the conditions of your offer have been met and you have paid your deposit. Please submit a copy of your passport with your offer acceptance. In order to enrol on a course at Sheffield Hallam you must use the CAS we have issued in order to obtain your visa. If you arrive at the University and have used a CAS from another university to obtain your visa you will not be able to enrol.

Important information if travelling with a spouse and dependents

It is important you appreciate we do not have an accommodation offer for families and you need to be aware that accommodation options for families in Sheffield are severely limited. The university can only guarantee accommodation in our partner halls of residence for international students travelling without dependants.

If you are planning to bring your spouse / dependent children to Sheffield, you will need to secure private accommodation, which will require planning and preparation ahead of joining us to commence your studies. It is essential you read this guidance Students with families | Sheffield Hallam University ([shu.ac.uk](https://www.shu.ac.uk)) BEFORE YOU ACCEPT THIS OFFER and follow the instructions carefully to avoid problems that could impact you as you start your course.

Enrolment onto your course is subject to you obtaining the right to study in the UK on a course at the University.

Confirmation of Acceptance for Studies ("CAS")

On confirmation of evidence that you have met all the entry conditions set out above, save for obtaining a visa, including receipt of your 1st Tuition payment (or an acceptable financial guarantee letter) by our finance department, we will e-mail you your unique CAS number. This will be a PDF copy of the CAS statement generated from the UKVI's SMS portal. You will need your CAS to apply for your student visa. Where applicable, we may be able to issue you an Unconditional Offer Letter as evidence that you have fulfilled all admissions entry requirements

Accepting Our Offer

If you wish to accept this offer and firmly reserve a place you must reply by email quoting your name and reference number (as above) and confirming the course you are accepting. Alternatively, on meeting your offer conditions and by paying the Deposit, on receipt of the Deposit by the University you formally accept your offer of a place with the University.

This offer has been made on the basis that you are an International Student. If this is not correct, this offer may be withdrawn at any time.

If you consider that you are a Home fee paying please contact ukadmissions@coventry.ac.uk who will review this offer.

By accepting your offer of a place, a Student Contract will be formed between you and the University. A copy of the 23/24 Student Contract will be sent in due course, which you will be signing up to when you enrol. A copy of the 22/23 Student Contract can be found on our website. This Offer Letter, the 23/24 Student Contract (and the documents referenced within it), detail the rights and the obligations you will be bound by during your time as a student and contain the obligations that the University will owe to you. You should read the Student Contract before you accept an offer of a place and before you enrol at the University.

Your Student Contract with the University begins as soon as you accept your offer. If you want to cancel your place, you have the right to do so within 14 days of accepting the offer. Within that 14 day cooling off period, you do not have to give a reason for cancelling. However, you must tell us that you want to cancel your place in a clear, written statement. If you need help making your statement clear, you can fill out the cancellation form attached to the enclosed 23/24 Student Contract and email it to applications.io@coventry.ac.uk.

Enrolment Details

Avant
Institute of Pharmaceutical Sciences
Coventry University
Priory Street
Coventry CV1 5FB

Further information will be sent to you by email advising you on how to enrol, most importantly:

- Ensure you do bring originals of the academic documents used by the Admissions team to issue your CAS to you [these would be stated on your CAS in the evidence to obtain offer section.] for verification by the University's Compliance team
- Ensure your personal details including your full names and date of birth on your original academic documents **do match** the same details on your passport. If there are any discrepancies between these documents and your passport you need to provide a supporting letter from your previous institution confirming you are indeed the same person who studied with them and was awarded the qualification. Please note the University **does not accept** affidavits and these would not be accepted for enrolment.
- You must have paid a minimum of £8000 to enrol.

Further information can be found at <https://www.coventry.ac.uk/study-at-coventry/get-ready/>

Document Verification – Academics and Evidence of English Proficiency

At enrolment, we will need to verify your academic and English qualifications stated on your CAS or Unconditional Offer letter. You **MUST** bring these original documents with you to enrol onto your course. Photocopies or electronic copies will **NOT** be accepted and you will not be able to enrol. Likewise, you may not be allowed to attend classes if originals of these are not provided.

Tuition Fees

The University will charge tuition fees in accordance with the 'Tuition Fee Terms and Conditions and Refund Policy. **Please ensure that you read the 'tuition fee terms and conditions':**

<https://www.coventry.ac.uk/the-university/key-information/registry/withdrawal-refunds/>

International Students (Non-EU) are required to pay a tuition fee deposit at each Academic Stage/Year to secure a place. Before you can fully enrol onto your course, or each Academic Stage/Year, **£8000.00 of your full tuition fees for the relevant Academic Stage/Year must be received by the University**. Please ensure you allow sufficient time (approx. 7- 10 working days) for your payment to be processed by your bank, received by the University and credited in to your student account. You may not be able to attend classes and have full access to University facilities, if you do not fulfil all the requirements for enrolment.

If you have to extend your studies beyond the normal duration of the course (e.g. to repeat a year or resit examinations) the University reserves the right to charge you fees at a higher rate during the additional period of study.

This offer is produced on our understanding that you are an overseas fee payer. If for any reason you believe you are a Home student, you need to complete a fee assessment form and provide all supporting documents for us to assess and confirm your fee status. We will need this completed at least 8 weeks to the start of your course. No applications for fee assessment will be accepted if we will not have enough time to process your request and make an informed decision to confirm your fee status before you are enrolled on the course. If you commence your studies as an overseas fee payer, without a fee assessment, you will remain an overseas fee payer for the duration of your course, unless there is a significant change in your immigration status and at the University's discretion.

Please note you may be asked to provide evidence of your financial documents before your CAS is released to you. Your financial documents must meet the requirements for a student visa application. You can find more information here: <https://www.gov.uk/student-visa>

EU Students

If you have the right to live in the UK, including under the UK Government's EU Settlement Scheme or because you are from the Republic of Ireland, you may be exempt from paying international fees and we encourage you to contact us via ukadmissions@coventry.ac.uk to discuss this further. Please note you will be required to provide documentation to prove your fee status eligibility.

Relevant Unspent Criminal Convictions

The University asks all individuals seeking sponsorship by the University to declare any relevant unspent criminal convictions in accordance with its 'Disclosure of Criminal Convictions Policy and Procedure'. If you accept this offer, you will receive an email with a declaration form which you must return to the University for consideration before your CAS will be issued to you.

You can see the 'Disclosure of Criminal Convictions Policy and Procedure' [here](#)

How to Pay (you will need to quote your Student ID number and full names when making payment):

- Online (for the Coventry Campus): [here](#)
- Other methods - see information [here](#)

*** In some instances, we may need to track your payment in order to process your application further, please retain your proof of payment to facilitate tracking of that payment where necessary (Eg. MT103 form).

Please note that students or 3rd parties may no longer be able to pay in Cash deposits at the branch counters at some UK banks. So we strongly advice you make your tuition payment(s) using one of the options highlighted above.

Tuition Awards and Scholarships

If you have been awarded a tuition award or scholarship, you will only be able to apply them onto your final tuition payment (not towards your second instalment). If paying your full fees upfront, at once before enrolment, we recommend that you deduct the value of the tuition award or scholarship before making your full payment. Refunds could take numerous weeks to process.

Academic Progression

If you have ever studied in the UK prior to joining the University, you must provide details of any study undertaken, including results and copies of visas held. You should also inform us of any courses you have failed or failed to complete for any reason. Failure to disclose this may result in visa refusal or withdrawal of our sponsorship of your study in the UK.

Sponsored Students

If you are being sponsored by a UKVI approved organisation (such as your Government or your employer), please ensure you provide us with a formal and acceptable letter of Sponsorship confirming the terms of the sponsorship, in accordance to the tuition and maintenance fees stated above.

Please note that the University does not accept MOHE sponsored student onto Undergraduate courses that are less than 3 years in length.

Completing the under- 18 Parental Consent and Guardianship Form (if required)

If you are under the age of 18 at the time you accept this offer, you need your parent or guardian's consent and you must fill in the form providing us with contact details of a UK-based parent/guardian, who will be accessible to the University should the need arise.

We will not issue your CAS letter if this form is not completed fully and returned to us.

Alternative Offers

Please note that admissions onto our courses are subject to you fulfilling our minimum entry requirements. If we assess your application and qualification(s) (with you providing a portfolio, undergoing a faculty interview where required) for a particular course, we may have offered you an alternative course that is more suitable to you based on your qualifications and skill set. Please note, alternative courses offered may take place at one of our other campuses. Please read the offer details above very carefully.

MDes or MEng Programmes are over four years with the possibility of doing an Industry Enhancement year. This is reflected within the exit titles associated with the four-year courses, either Sandwich BA/BEng (Hons) qualification or an integrated Masters course with an MDes/MEng qualification. The Integrated Masters route is designed for high achieving students to continue their studies and to develop advanced technical skills; as such, achievement attained during level 2 is used to determine suitability for progression. Additionally, a three year BA (Hons) degree is available for those wishing to omit the Industry Enhancement year. We would only issue an offer and CAS for a standard 3 year or 4 year BA/BSc Degree and not for an integrated masters.

If you opt to extend the length of your course after your visa has been granted and this extension does not involve an Industrial placement, you will be required to return to your home country in order to extend your student visa. You will be responsible for covering all additional costs associated with this including visa applications and return travel.

Applying for an ATAS Certificate (if required)

If any of your subjects are listed in the attached ATAS list, you **must** apply and obtain an ATAS certificate (issued by the Academic Technology Approval Scheme), before you apply for or extend your Visa, Entry Clearance, or Extension of Stay. If your course is not listed, it **MAY STILL** require ATAS, so please ensure you check the Home Office website for updates. Please visit <https://www.gov.uk/guidance/academic-technology-approval-scheme> to apply online for your ATAS certificate if required and obtain more information on the scheme.

If an ATAS certificate is required, you will not be granted access to your learning materials or be permitted to enrol onto your course until you provide a relevant ATAS certificate to the University.

Data protection

The University has a comprehensive Data Protection Policy which can be found on our website.

You can find out more about how the University handles student data and your rights in relation to data protection in our Fair Processing Notice for students a copy of which can be found on our website at

<https://www.coventry.ac.uk/the-university/gdpr-and-data-protection/fair-processing-notice-and-ico-registration-numbers/>

It is important that you read this Fair Processing Notice as it will tell you what personal information we collect from you, why, what we do with it and who we may share it with.

Personal Details

Please notify us if you change your address, email or telephone contact details so that we will keep in touch with you until enrolment. Good luck with your preparations and we hope you will be able to join us at the University soon. If you have any further queries please do not hesitate to contact us.

Your offer

Your offer is **unconditional**.

English language requirement

If your offer has an English language condition included, this is expressed as an IELTS requirement. If you do not have the required IELTS for entry, our [Pre-sessional courses](#) can help you to achieve this level.

Whilst we will accept tests of English other than IELTS, providing they are at the correct level for entry, if you are intending to undertake an English language test we would recommend that you undertake one of the UKVI Secure English Language Tests, further details are available on the [Home Office website](#).

Should you not meet the English language requirements for the course and need to undertake a pre-sessional English course we will only be able to accept a UKVI Secure English Language Test as evidence of your English language ability for entry to the pre-sessional course.

Visa

You will have to obtain a visa to study in the UK before you can take up your place. For further information, please visit [our website](#).

Before you can apply for a visa, we have to issue you with a Certificate of Acceptance for Studies (CAS). We can only do so if you meet certain criteria, which are set out in our **Codes of Practice** document, included with this offer, relating to our sponsorship of International students. Please read the **Codes of Practice** carefully as it will apply to you if you accept this offer. Please note that we reserve the right, in certain circumstances, not to issue a CAS or to withdraw a CAS even after you have accepted this offer. If we do not issue a CAS, you will not be able to obtain a visa, and you will not be able to take up your place at the University.

By requesting a CAS, you are confirming that you are fully aware of your responsibility to abide by the conditions of your student visa, should a CAS be issued to you. This includes not exceeding working hour restrictions as stated on your visa/BRP and your obligation to leave the UK when your visa expires. Further details about your responsibilities as an international student visa holder are available on the [UKCISA website](#).

Your fees

Tuition fee 2023 £17950

The tuition fee for the 2023 academic year is set out above and is provided on the basis that you are an International student for fees purposes. If you are unsure or believe this is not the case please contact us as soon as possible. Your fee status may be reassessed if you have provided any incorrect information.

For further information about your tuition fees, including when they are due and the circumstances in which they may change for future years of your course please see the **Fees and Finance Policy** which is sent with this offer. If we anticipate there will be any additional course specific costs (for example, specialist equipment, art supplies, laboratory overalls or contributions to field trips) these will be highlighted in the **About your course** factsheet which is also sent with this offer.

Internal reference: 781188

Issued: 10/05/2023

Your fees (continued)

Please note that graduates of a University of Hertfordshire undergraduate degree (either in the UK or at a partner institution overseas) and who are starting a new postgraduate taught course at the university may be eligible to receive a 20% reduction of fees. See eligibility criteria for the 'UH Graduate Scholarship' in our Fees and Funding policy that's included with your offer.

Accepting this offer

We very much hope you choose to study with us, so the next step will be to formally accept this offer.

By accepting this offer, you are entering into a legal contract to study with the University of Hertfordshire, subject to you fulfilling the conditions (if any) of the offer.

To accept this offer, you must either pay a deposit of **£5000** (which will be offset against your first year tuition fee) or provide us with satisfactory evidence that your fees will be paid by a sponsor as recognised by the UKVI. Please refer to section 2.10 of the Fees and Finance Policy for details of how the deposit (which contains a non-refundable element) may be paid or the evidence of sponsorship provided.

It may be necessary for the University to close courses earlier than this deposit date due to capacity. If this is the case, you will be contacted via email to advise you of either earlier deposit deadlines dates or that your course is now full.

If you do not require a student visa then you are not required to pay a deposit of £5000, to accept this offer please email international@herts.ac.uk

There is more information about the contract in the **Key Facts** document sent with this letter, so do please read it carefully (as well as the other accompanying documents) before accepting our offer.

If on our part there are any conditions which have to be met before we can guarantee to run the course, these will also be set out in the **About your course** factsheet.

Changing your mind

You have a legal right to change your mind about accepting this offer within 14 days of doing so. Further information about this right, and how to exercise it, can be found in Section 23 of our **Key Facts** document sent with this offer.

We look forward to welcoming you to the University of Hertfordshire and wish you every success with your academic studies.

Warm regards

The salary shall be payable on a monthly basis in arrears on or about the last working day of each calendar month, but in no case later than the 7th day of the succeeding calendar month. Please note that your salary details are highly confidential and should not be disclosed inside or outside the Company by you in any manner whatsoever and any failure on your part to adhere to this obligation shall be considered as serious breach of the terms of this letter of appointment.

BONUS

You shall be eligible for bonus as per the Company's bonus policy.

TERMINATION OF EMPLOYMENT

During the Probation period, either Company or you may at any time terminate this letter of appointment without cause by giving in writing to the other party, Thirty (30) days notice. Company reserves the right either to accept your pay and allowance / towards the notice period or demand for actual service during the notice period. You shall not be entitled to any notice pay if your employment is terminated in accordance with condition 7.6 of the Appendix 3 to this letter of appointment.

After completion of the Probation period, either Company or you may at any time terminate this letter of appointment without cause by giving in writing to the other party, 30 days notice. The Company reserves the right either to accept your pay and allowance / towards the notice period or demand for actual service during the notice period. You shall not be entitled to any notice pay if your employment is terminated in accordance with condition 7.6 of the Appendix 3 to this letter of appointment.

However, notwithstanding the above, the Employee must refer to the Company's Separation Policy (as available on Company's intranet link) for the notice period days applicable to them based on their entity, grade and employment status at the time of resignation.

The notice period matrix, as provided under the Company's Separation Policy, shall be applicable with the change in employee job family, job role and employment status. The provisions of the notice period matrix, as provided under the Company's Separation Policy, shall over-ride the notice period as stipulated in the appointment contract or any other document issued before this date. No separate individual employee consent shall be necessary for applicability of this clause.

In case of any conflict pertaining to the notice period between this Offer letter and the prevalent Separation Policy of the Company, the contents of the Separation Policy shall take precedence over the terms of this offer letter and shall be binding on the employee.
